Abstract of JP11312175

PROBLEM TO BE SOLVED: To obtain an information distribution system and its method, capable of simply preparing an original disk and demanding necessary charges for purchased data. **SOLUTION:** The system is provided with a music distribution server 1, a user terminal 2 and an information terminal 3. When the terminal 2 is connected to the server 1 and the music data of a music program to be downloaded are determined, TOC information corresponding to the music program is sent from the sever 1 to the terminal 2 and stored in a disk recording medium 9. When the disk recording medium 9 recording only the TOC information is connected to the terminal 3 installed in a CD shop or a convenience store and a prescribed charge is paid, music information corresponding to the TOC information is downloaded from the server 1.
